

Jaw Crusher Range

MXJ-1100

The MXJ-1100 is a high performance single toggle primary jaw crusher designed for medium scale operators to handle the following applications :

- Granite, Basalt and most medium and hard stone
  - Concrete and landfill recycling
  - Demolition
  - Gravel
- Quarrying and mining
  - Construction waste
  - River Gravel
  - Coal and slag

The 1100 mm x 700 mm (44” x 28”) crusher provides the latest rechnology in heavy duty crusher design that delivers high production, large feed opening, complete with hydraulic management (gap adjustment and safety release system, patented N.S.S. = Non Stop System). The Non-Stop System also protects the crusher from un-crushable objects by opening and resetting itself to the set position.

1 100 SPECIFICATION

Weight	Est 46,800 Kgs ( 103,176 Lbs)
Tracks	400 mm
Power Unit	CAT C9.3 Tier 3A 350 HP
Capacity	Up to 300 T/H
Main Conveyor	1000 mm (40’’)
Grizzly Feeder	1100 mm (44’’)
Side Conveyor	600 mm (24’’)
Max Feed Size	600 mm (24’’)
Inlet Opening	1100 mm x 700 mm (44’’ x 28’’)
Transport Length	14900 mm (48’ - 10’’)
Transport Height	3600 mm (11’ - 10’’)
Transport Width	3000 mm (9’ - 10’’)
C.S.S.	45 - 160 mm (1.8’’-6.3’’)

FEATURES AND BENEFITS

- Non Stop System to ensure continuous crushing
- Full hydraulic adjustment of CSS during work
- Full automatic feeding system to get optimum crushing results
- Perfect results at lowest costs
- Robust and smart design with good access for maintenance
- Proper managing of the machine
- Automatic Recovery of Jaw Wear
- Automatic Start and Stop
